# EduClimber: Viewing Assessment Data on a Custom Data Wall

Create a Custom Data Wall:

1. **Log in, District Code 1876**

2. **Dashboard**

3. **Menu: Choose the Charting Icon**

4. Select **Custom Grade Data Wall** (entire grade) or **Custom Class Data Wall** (just your class).

Custom Grade Data Wall
Create a customized Data Wall based on student grade level

Custom Class Data Wall
Create a customized Data Wall based on student class assignments

5. **Work your way through the following choices:**

   a. Year
   b. User
   c. Courses (any will work for this purpose)
   d. Periods (choose all)
   e. Assessment … then click next
   f. Categories (choose the subject you are wanting to show data for)
   g. Assessment Groups (choose the assessment)
   h. Assessments (click all that you would like to appear on the data wall)
   i. Windows … then search   … this will bring up the color-coded data wall

Notes:

- **You can <u>pin</u> (move) a column by clicking the three horizontal lines at the top of the column.**
- **If you click on the word "Student" at the top of the student column, it will <u>rearrange the list of names</u> in different ways (low to high scores, alphabetical A-Z, alphabetical Z-A).**
- **If you click on the window name ("Fall") above any given column, you can <u>rearrange the data</u> as well.**
- **You can <u>add and save comments</u> for students by double-clicking in cells in the comments column.**
- **If this is a data wall you plan to go back to multiple times, you can <u>save it</u> by clicking Save Search at the top left. (It will then show up in the Charting section under Saved Searches.)**
